# Bins

# TTS Derby Bin with Pedal Operated Lid 30L [L]

**Bin with pedal and lid, with odour eliminating cartridge box and bag tightener. Colour coded lids ideal for separate waste collection.** We recommend 70x40cm garbage bags in the 30L version and 50x60cm standard bags in the version with 2x15L insert. In compliance with the H.A.C.C.P. regulation, that require bins avoiding any contact with the hands and are easy to clean and disinfect.

- Features:**
- Hygienic: thanks to the pedal, it can be used without any hand contact
  - Anti-odour: lid provided with odour eliminating cartridge box
  - Efficient: 2x15L insert to set up practical departments, in which different types of waste can be disposed of, encouraging its recycling
  - Ideal to create zones of separate waste collection thanks to the colour-coded lids

# TTS Derby Bin with Pedal Operated Lid 60L [XL]

**Bin with pedal and lid, with odour eliminating cartridge box and bag tightener. Waste collection bin ideal for any environments. Colour coded lids ideal for separate waste collection.** We recommend 70x110cm standard garbage bags in the 60L version and 50x70cm in the version with 2x30L insert. In compliance with the H.A.C.C.P. regulation, that require bins avoiding any contact with the hands and are easy to clean and disinfect.

- Features:**
- Hygienic: thanks to the pedal, it can be used without any hand contact
  - Anti-odour: lid provided with odour eliminating cartridge box
  - Efficient: 2x30L insert to set up practical departments, in which different types of waste can be disposed of, encouraging its recycling

# TTS Derby Bin with Pedal Operated Lid 90L [XXL]

**Bin with pedal and lid, with odour eliminating cartridge box and bag tightener. Colour coded lids ideal for separate waste collection.** We recommend 80x110cm standard garbage bags in the 90L version and 70x110cm in the version with 2x45L insert. In compliance with the H.A.C.C.P. regulation, that require bins avoiding any contact with the hands and are easy to clean and disinfect.

- Hygienic
- Anti-odour
- Efficient: 2x45L
- Ideal to create zones of separate waste collection
- 5 Colour-coded lids to choose

Features:

- Hygienic: thanks to the pedal, it can be used without any hand contact
- Anti-odour: lid provided with odour eliminating cartridge box
- Efficient: 2x45L insert to set up practical departments, in which different types of waste can be disposed of, encouraging its recycling
- Ideal to create zones of separate waste collection thanks to the colour-coded lids

# TTS Moji Bin with Pedal Operated Lid 50L

**Bin with pedal and lid, with odour eliminating cartridge box and bag tightener. Waste collection bin ideal for any environments.** We recommend 60x65cm garbage bags. In compliance with the H.A.C.C.P. regulation, that require bins avoiding any contact with the hands and are easy to clean and disinfect.

Features:

- Hygienic: thanks to the pedal, it can be used without any hand contact
- Handy: slits allow the waste collection bag to be fixed
- Easy to maintain: the smooth surfaces and the absence of cavities facilitate cleaning and guarantee a high level of hygiene
- Customisable: the lid can be customised graphically to make the dustbin a means of communication

## TTS Action Pro Tec & Double 30L Bucket Combo Mopping Unit

**Double bucket with two drain-plugs and Tec wringer, plain coloured, 80° mm wheels.** Professional jaw wringer. Ideal for cleaning medium-large areas where it is necessary to rinse the mop.  
Compatible with flaps, pockets system and mops.

- Features:**
- Highest hygiene: rinsing water is always clean thanks to the back drain-plug that allows emptying the bucket when necessary
  - Effective: separation of cleaning solution from rinsing water allows a better cleaning result, less waste of water and chemical
  - Ergonomic: the drain-plugs allow emptying the bucket without lifting and higher than the traditional buckets to allow the operator to work while standing
  - Easy to maintain: the smooth surfaces and the absence of cavities facilitate cleaning and guarantee a high level of hygiene
  - Handy: double handle to carry it easily

## Simple & Easy

Suitable for all body fluids

- **Non Chlorine**
- **Odour-free**
- **Non-Toxic**

Medi9 Universal Spill Pad Kit  
**MKO85182**

“

Maurice Madeo,  
Deputy Director Infection  
Prevention and Control.

Northern Lincolnshire  
and Goole  
NHS Foundation Trust

The decision was taken by NLAG to look at the cleaning processes & procedures [after] identifying that the trust was using significant quantities of chlorine-based disinfectants daily, and was of detriment to patients, staff, and the environment. Consultation with Facilities resulted in Nine Group being invited to present alternative products for evaluation. NLAG was using a variety of different standard and chlorine-based cleaning products daily. Following a trial period, the decision was made to roll out Medi9 & Uni9 products across all three NLAG hospitals. The usage of products [was] reduced by 50% ...and a reduction in the number of requests for deep cleans by nearly 15%. The six months after implementation of Medi9 & Uni9 usage has produced positive feedback from patients and staff. In addition, it has helped the Trust achieve a 30% reduction in the number of C.Difficile cases, [and] are pleased to report that we've not had to close an entire ward due to viral...outbreaks for twelve months.

# TTS – Lamello Frame

**Frame with rubber blades and clips to hold gauzes for dusting.** Dusting system with gauzes or antistatic cloths. Ideal for high-performance professional cleaning. Sterilizable up to 120°C.

*Handles – See pages 64 & 54*  
*Dusting Cloth– See page 45*  
*Compatible Cloths – See pages 82 to 84*

- Features:**
- Effective: the rubber blades adhere perfectly to any surface granting dust collection
  - Hygienic: closed-cell rubber prevents dirt and bacteria from collecting
  - Handy: easy to clean and sterilizable in an autoclave, recommended in a hospital environment
  - Shock-resistant: a series of ribs reinforce the tool
  - Versatile: it can be used with any cloth or gauze thanks to the convenient universal clips
  - Handy: the 360° articulated joint allows use with ease in congested areas

## TTS Buffy [Acrylic U-Opening Duster]

**Acrylic u-opening duster, inclining up to 240° and Lampo system handle with removable cap.** Foldable duster for manual dusting. The best solution for a quick and precise cleaning of hard-to-reach surfaces with regard to highness, depth or inclination. (Lampo connection compatible).

- ## Features:
- Effective: the natural electrostatic action that is generated by rubbing acrylic fibres on the surfaces makes them ideal for dusting
  - Practical: U-shaped fitting enables even difficult-to-reach surfaces to be accessed with ease
  - Versatile: practical button-operated system enables duster to be adjusted up to 240°
  - Safe: the coupling system for replacement duster ensures it is securely fixed while cleaning

TTS - Buffy Wrap Around  
U Shape Frame [Lampo  
Connection Compatible]

Foldable U opening duster, both sides  
dusting using Acrylic Mop Head Angle  
adjustable 24°

NHSSC SKU <b>MKB85293</b>	Size <b>40cm x 8cm</b>

NGSKU: 12040259

## TTS Dosely [Fluid Tank - EPDM Seals]

**Dosing device for on-demand mop soaking, including one adhesive labels set (1 red + 1 blue).** Soaking station for single mop soaking directly on the trolley. Ideal for any environment that wants the benefits of pre-soaking without the burden of management.

- ## Features:
- Multipurpose: designed to manage two different degrees of risk and relative detergents
  - Total control: reduces subjectivity of the operator allowing total control of the dosage
  - Effective: the cleaning solution is protected in a hermetic tank that keeps intact the active ingredients of the chemical
  - Versatile: allows you to adapt the moistness of the mop to the size of the area to be cleaned and the type of floor
  - Intuitive: designed highlighting areas of interaction to reduce training time
  - Mechanic: it does not contain electrical parts, minimizing consumption, maintenance and environmental impact during disposal

# Wet2Go Disposable Multi Mop

With our Multi mop one can clean a floor of about 20m2 with just one mop. It is hygienic (no cross contamination), time-saving and easy. Due to the microfibre based open structure of the cleaning layer, the dirt gets soaked up into the mop and the surface remains clean and streak free. The advanced barrier film creates a hygienic barricade between the dirt and the frame to which the mop is attached.

Compatible Mop - See Page 63

- Features:
- Removes >99% of microorganisms with the use of only water (certified according EN 16615:2015)
  - Convenient (no washing, easy preparation, less logistics)
  - Constant performance (each time new mop)
  - 13 gram = 20m2 cleaning
  - Money-saving (lightweight mop, no washing costs, less transport)
  - Eco-friendly (no washing, less transport)
  - No detergent required

# Wet2Go Disposable Spill Absorbing Mop

Cleaning large pools of liquid can be challenging because accidents often happen when cleaning staff aren't around. The design of the mop makes it convenient because you can easily dispose of both the mop and the captured dirt after use. This reduces the risk of cross-contamination almost entirely. By using a new mop for each spill, you ensure a hygienic and consistent performance with every cleaning task.

Compatible Mop - See Page 63

- Features:
- Absorption >250ml per mop
  - Convenient (no washing, easy preparation, less logistics)
  - Hygienic and constant performance (each time new mop)
  - Money-saving (no washing costs, less transport)
  - Eco-friendly (no washing, less transport)

# Wet2Go Disposable Disinfect Mop

In disinfection, preventing cross-contamination is crucial. Our disposable disinfect mops are designed to capture bacteria and viruses within the mop. These are then disposed of, which effectively reduces the risk of cross-contamination to zero. Thanks to the advanced and highly absorbent layer, one disposable mop can cover approximately 30m²

Compatible Mop - See Page 63

- Features:
- Absorption >180ml which equals > 30m2 capacity per mop
  - Convenient (no washing, easy preparation, less logistics)
  - Slow discharge of the liquid
  - Hygienic and constant performance (each time new mop)
  - Money-saving (no washing costs, less transport)
  - Eco-friendly (no washing, less transport)

# Wet2Go Ready Care Disposable Pre-Soaked Flat Mop

The state-of-the-art cleaning wipe for professional usage. Cleaning has never been easier, faster, and more professional. This pre-wetted solution can be instantly used. Bulkier than most other disposable wipes, the Ready cloth is very comfortable to hold and has a great hand touch. Due to the unique composition the WET2GO Ready cloth does not leave any residue on surfaces, the liquid decomposes in just water and oxygen, which are both not harmful for the environment.

Compatible Mop - See Page 63

- Features:**
- 100% convenient (no washing, no preparation, less logistics)
  - Ready to use = failure free
  - Maximum dirt removal: 99,9% microorganism removal
  - Up to 40% time saving compared to traditional mops
  - 1 mop can be used to clean 20m2
  - Zero residue cleaning, 100% biodegradable cleaning liquid
  - Eco-friendly (no washing, less transport, reduced waste water disposal)
  - Money-saving (less labour, no washing costs, less transport)
  - State of the art dispenser packaging

# Spill Kits

# Medi9 Superabsorb Spill Granules / Clean-up Powder

Watch in action

ninegrp.com/video-hub-medi9

**Medi9 Superabsorb is a superabsorbent polymer specifically engineered for absorption and retention of fluids associated with the healthcare industry.**

Medi9 Superabsorb is a swellable, in-soluble, cross-linked polymer, packaged as a white, granular product in its dry form. Upon contact with fluids, a gel is formed. The resulting gel, with excellent mechanical stability, retains these fluids well, even under stress, since the absorption is based on a physical-chemical process.

- Features:**
- Safe to use in any environment
  - Fragrance free / No odour
  - Generous size pad
  - Suitable for blood, urine, diarrhoea, vomit and many other liquid type spills.

# TTS NHSG1 – Magic Line Trolley 300E

**Closed trolley with 2 areas: 150L bag holder and storage area with drawer.** Multipurpose polypropylene trolley, modular and customisable to meet every cleaning need. Ideal to carry cleaning tools.

- Features:**
- Hygienic: the plastic frames separate the trolley modules avoiding contamination between the washing, storage and waste collection area
  - Shock-resistant: polypropylene, naturally stainless and elastic, guarantees shockproof performance
  - Modular: components and accessories allow you to customize the trolley for every need, making it easy to update or repair at any time
  - Easy to maintain: the smooth surfaces and the absence of cavities facilitate cleaning and guarantee a high level of hygiene
  - Safety: key system to safely manage the trolley
  - Discrete: the soft closing lid
  - Customisable: the panels of the trolley

TTS – NHSG1 – Magic Line Trolley 300E

Rear Enclosed waste collection area with support shelf, 150L capacity – Lockable storage area with 1x22L Drawer, basket above with 4x 4L Buckets R/B/G/Y

# Cleaning that takes care of the environment

Reducing production and transport emissions, using recycled raw materials and production processes free of harmful substances are just some of the steps that can be taken to reduce the environmental impacts of cleaning.

Similarly, designing products that reduce the waste of resources such as water, chemicals and energy also reduces impact and running costs. TTS is committed every day to create solutions that make cleaning more effective and efficient, without damaging environment and health.

# Recycled Plastic

Environmental responsibility has always influenced TTS's choices, also with regard to raw materials: TTS products feature components made of recycled plastic, certified Second Life Plastic (PSV) by the Institute for the Promotion of Recycling Plastics (IPPR).

Unlike simple self-declarations, PSV certification applies the international ISO 14021 regulation for calculating recycled content, ensuring the quality of recycled plastics and their traceability according to EN 15343. In addition, it involves periodic surveillance by the Certification Authority to ensure compliance over time with the requirements or the maintenance of the mark.

- Products with PSV-certified components
- Systems designed to save water
- Production and use of clean energy
- EU Ecolabel certified textiles and trolleys
- Repairable products

# Wipes

# Uni9 Detergent Large Wipes

**Detergent universal large wipes are disposable cleaning wipes designed for effective cleaning in healthcare settings.** These wipes are pre-moistened with a detergent-based cleaning solution that allows them to remove dirt, grime, and stains from a wide range of surfaces commonly found in healthcare facilities.

- Features:
- Wipes 90% recycled content
  - Made here in Great Britain for greater control
  - Sustainable System: Tub / Refills

“

**Paul Norris**  
Operational Service Lead  
Basingstoke Hospital NHS Trust

We have been working closely with Nine Group to bring new products & cleaning materials into the trust. [We] have found them to be a very professional company when we have had issues around our stock levels. They have worked tirelessly to provide us with their products, to the point of driving up from Cornwall with products in their car in the late evening.

We currently use Nine Group's Medi9 wipes and their floor cleaning products. During the current pandemic we have also been using their fogging machines to great effect.

We have been working very closely with the Nine group to bring new products and cleaning materials into our NHS trust. They are always innovating and sharing new technology with us. It is a great working relationship.
